Dear Larry Schaeffer, 2/19/93

Sorry, I have no pipeline to Reagan or any of those arounf him.

I don't think that reaching him would do any good anyway.

Any president would turn the matter over to the FBI, and you know whatt would happen then.

I don't know if he be willing to get interested in any way, but I'd like to be able to talk to Larry O'Brien.

With influential help, it is now possible to end the official story of the JFK assassination.

That is not the same as solving it, but I believe it is the only way that a start can be made.

Sorry I couldn't respond sooner.

Best wishes,
